Dear Mr. Newton:

We have completed our review of the above-referenced document, dated November 4, 2005, which we received on November 7, 2005. We have the following comments:

The report should be signed by the California Professional Geologist and/or the Professional Engineer who was responsible for oversight of the activities discussed in this report, in accordance with State Water Resources Control Board Resolution No. 92-49.

At this time, we concur with your request for no further action regarding the soil at UST Site 222. Please send me a signature page signed by the registered professional who was responsible for oversight of this project.

If you should have any questions, please call me at (951) 782-4498, or send e-mail to phannon@waterboards.ca.gov.

Sincerely,
